DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The 'Professional Building' is yet another instance of a facade applied to an existing building. In this case the facade is a stone face with neo-classic details: six Ionic pilasters complete with capitals, bases and stylobate, full entablature with dentil cornice, and a balustrade set en russeau. There are 2 storeys of five bays placed between the pilasters (unfluted). The ground floor windows and the main entrance are recent brutalizations of larger pieces of glass and aluminum sash. The second storey windows have an interesting star-shaped mullion pattern with 8 panes in the upper haf of the sash; the central bay has a smaller window with a variation of the star-shaped tracery. 'Professional Building' has been applied in aluminum letters to the entablature, probably replacing an earlier name.

## STATEMENT OF SIGNIFICANCE (Include Personages, Dates, Events, Etc.)

Probably the same period as the Garrett County Courthouse, the "Professional Building" exhibits the coldly academic detailing of the turn of the century (as opposed to the imaginative handling of the Greek in the 1840s), the whole facade being a flattened temple front. The primary feeling is more Roman than Greek, although the Ionic capitals have the enthyrnion band that marks the Erectheum as its ultimate source. The whole is somewhat sophisticated for the irregularly shaped building to which it is attached, but it is nonetheless handsome despite its recent mutilations, and represents our nation's 'Imperialist' age in Oakland.
